

PRESS RELEASE

Monte-Carlo Television Festival 2025: This Summer is going to be exciting!

Monaco, 12 November 2024

The **64th edition of the Monte-Carlo Television Festival** will take place from **Friday 13th to Tuesday 17th June 2025** at the Grimaldi Forum.

Premieres, fan meetings with international talent, press activities, photocalls, public events, themed evenings, activities in the fan zone, and the traditional official ceremonies featuring the renowned Golden Nymph Awards: the upcoming Monte-Carlo Television Festival promises to be incredibly exhilarating.

The Festival's team, set to travel to Los Angeles in December to meet with international studios, is diligently working on crafting an exceptional programme.

For over 60 years, the Monte-Carlo Television Festival has showcased the best audiovisual creations in the industry. During the 63rd edition it featured no fewer than four world premieres, two international premieres, and four French premieres, all within five days and in the presence of over 200 talent and large audiences.

With more than thirty public events, including the celebration of the 1,000th episode of the NCIS franchise and the presentation of the spin-off *NCIS: Tony & Ziva*, the 50th anniversary of the iconic series *Little House on the Prairie*, and the filming of episodes of the soap opera *The Bold and The Beautiful*, professionals, journalists, and fans experienced several privileged and unforgettable moments, such as the world premiere of the miniseries *The Gray House*, which opened the Festival, the touching moment with Morgan Freeman as he received his Crystal Nymph Award, and the joy of Simone Ashley, awarded Most Promising Talent Nymph.

During the Golden Nymph Awards, the audience cheered for French actor, director, and screenwriter Olivier Marchal, who was honoured for his exceptional contribution to the entertainment and television industry.

2025 will see a new edition of Business Content, which brings together numerous professionals each year to discuss and consider the state of the art and other projects in a unique series of conferences.

The competition for the Golden Nymphs will kick off on 6th February 2025 with the call for entries.
